

PowerTwist Plus

Climate Control

HVAC Rooftop Unit

Annual Cost Savings
\$15,309.44

- Reduce maintenance time*
- Reduce V-belt stock*
- Lasts longer in harsh conditions*
- Permanent upgrade*

Problem

- Working capital tied up in V-belt inventory
- Downtime required to maintain the belts on the HVAC units
- Noise level of the belts grew increasingly loud as the belt's life came to an end

Solution

- Stock a 25' box of B/5L PowerTwist Plus and make to required length on-site. Keep the right amount of inventory on hand at all times.
- Belts are easily made up to the required length, by hand, in seconds and can be rolled onto a drive under proper tension.
- The material and design of PowerTwist Plus V-belts delivers the same horsepower rating as the standard rubber V-belt with major reductions in noise from vibrations.
- PowerTwist Plus V-Belts are a permanent replacement. No need to return to the job site to switch out.

Do the Math!

<i>Rubber V-belts</i>		<i>PowerTwist Plus V-Belts</i>	
B43 rubber V-belt	\$12.75	PowerTwist Plus V-Belt B Section	\$37.78
Four belts required to last two years	\$51.00	One belt lasted three years	\$37.78
Labor to install four belts @ \$50/hr, based on average time	\$100.00	Labor to install one V-belt @ \$50/hr	\$12.50
Total cost over two years	\$151.00	Total cost over 2 years	\$50.28
Total cost for 152 drives over two years	\$22,952.00	Total cost for 152 drives with PowerTwist Plus over two years	\$7,642.56
Total savings with PowerTwist Plus over two years \$15,309.44
